

**WATER
OUTSIDE CITY LIMITS**

(billed in 100 gallons)

Monthly Rate = Monthly Customer Charge (based on the meter size) + Monthly Volume Charge

Customer charge is a base charge for having a meter/service. If no water is used within a billing period, a customer charge will still be applied.

RATES FOR OUT-OF-CITY WATER SERVICE– Per Section 201.2 of the City of Boerne Utility Rules and Regulations, water services are not extended outside the City of Boerne limits unless doing so is deemed beneficial to the City by the City Council. If such service is deemed beneficial and provided to the out-of-City customer, the current approved rates for water will be subject to a rate modifier. The rate modifier for the out-of-City customer is 20% which includes the customer, volume charge and all other specific rate elements. This rate modifier is based on the cost of service and is due to the fact that such out-of-City customers are not subject to the ownership risk for the utility system debt that is assumed by citizens served by the City of Boerne utilities. (EFFECTIVE 1/1/2016)

Rates as of October 1, 2018
